

# Notice to Local Small Commercial Vessels

## Announcements for Local Shipping Community

### COVID 19

**To** : Ship owners, Ship's operators and agencies, Dutch Caribbean Coast Guard (DCCG), Harbour Master, Masters, Marines and Yachts Association/Operators  
**Applicable to** : MAC COVID-19 Contingency Plan and Guidelines  
**Effective as from** : 19 october 2021

#### Foreword

The Government will strengthen the controls at possible high risk events. The Controls right now aren't being executed in an optimal way and this needs to be improved.

The Government will tighten control by a multidisciplinary team, whose responsibility is to check if the organizer is complying with the control at the entrance of the activity itself/ boarding of vessels. On the water, the Coast Guard checks if organizers (charter boat) are complying with the control at the boarding of vessels and also the applicable regulations onboard during the trip.

The organizer (charter boat) is responsible for the control at the entrance, that the event has clear boundaries and that the correct rules are applied. If this is not the case, immediate action will be taken.

#### Announcement (new)

The following announcement from the official Government site, <https://gobiernu.cw/corona-virus-english-updates/> will be applying to small commercial vessels;

- Adjustments for entertainment vessels and charters – announcement 406, 408 & 410

#### Digital Corona Health App and Temporary Solution

Curaçao is developing a Digital Covid Certificate (DCC) – Curaçao Health App, which will be take approximately 2 to 3 weeks to be launched.

There are 3 verifier App's to validate EU DCC's for Vaccination proof, as temporary solution;

1. Dutch national app
2. EU Member States (International)
3. Belgian app
